

East Hebbron Me. 13<sup>th</sup> Aug. 1889

Mr. J. Wilson Cambridge

Dear Sir

Some years ago I sent a *Nitella* from a large spring  
in a peat bog here to Mr. J. F. Allen, who  
thought it might belong to a new species. It was  
then sterile. This year it is fruiting. I have not now  
Mr. Allen's address, so I write to you though perhaps it  
is rather out of your line. If there is anyone now  
in Cambridge who is authority on Characeae,  
please refer it to him. If not, please send it on  
to Mr. Allen, whose address I suppose you can  
easily obtain. If the plant is of interest to  
anybody, I will make a number of good specimens  
and send. I can also send some of the fresh plant  
if desirable.

Very truly yours

John A. Allen

East Hebbron
